# Nations Reach Deal to Reduce HFCs in Effort to Dent Global Warming

Hydrofluorocarbons, used in air conditioners and refrigerators, have been described as world's fastest-growing climate pollutants

*Associated Press*

Oct. 14, 2016 8:26 pm ET

KIGALI, Rwanda—Nations attending a climate conference here have reached a deal to limit the use of greenhouse gases far more powerful than carbon dioxide as part of efforts to fight climate change,
